» INTRODUCTION

According to UN Habitat, a National Urban Policy is:

A coherent set of decisions derived through a deliberate government-led process of coordinating and rallying various actors for a common vision and goal that will promote more transformative, productive, inclusive and resilient urban development for the long term, 2014.

A National Urban Policy is a tool that can be used by government in order to direct and control urbanization. With input from the regional and local levels, a coordinated effort from the national level government through a NUP provides the best opportunity for the development of a coordinating and thorough nation-wide urban development plan.

National Urban Policy has been identified as a key tool to support the implementation and monitoring of the Sustainable Development Goals (SDGs) and the New Urban Agenda. It has been identified as such due to its ability to provide structure and organization to the process of urbanization and, therefore, its value as a tool to capitalize on the opportunities of urbanization. The recognition of National Urban Policy as a key tool for the SDGs and the New Urban Agenda is demonstrated through its selection as one of ten Habitat III Policy Units. With the adoption of SDG 11, to make cities and human settlements inclusive, safe, resilient, and sustainable there is clear international recognition of the need for sustainable urban growth. A National Urban Policy touches on and is relevant to many of the SDGs. Most of the SDGs have clear urban dimensions. Achieving many of the goals without addressing what happens in urban areas would be difficult. In the policy paper of Policy Unit 3, the expert group recommended that: A National Urban Policy should constitute an important part of any serious attempt to implement the SDGs and should become a key instrument to measure the achievement of the SDGs. (PU3 policy paper, pg.6)

The UN Habitat National Urban Policy Database provides a global overview of the state of urban policy at the national level. The database gathers country- level data (when available) on the existence of relevant NUPs, dates of formulation, implementation, and monitoring and evaluation (as appropriate) main themes of these policies, the leading ministries and main actors, and, when possible, links to the policy documents. The aim of the database is to gather pertinent information on National Urban Policies in a central location and therefore make available a broad overview of the state of National Urban Policy globally.

The Database was developed by UN Habitat from 2014. National Urban Policies were collected, analyzed for the required information and input into the database. The information on National Urban Policies were then complimented by a range of statistical data, all of which can be useful in order contextualize the policy and can be used also during the development phase of National Urban Policy. The graphical representation of the Database presents and highlights information found in the Database for each country and is arranged into five global regions: Africa, Asia and the Pacific, Arab States, Latin America and North America and Europe. The database is a living document and will be continuously reviewed and updated in order to remain relevant and up to date.

Along with other National Urban Policy tools provided by UN Habitat and other partners, the National Urban Policy Database will assist with building a foundation of knowledge on National Urban Policy that will assist with the implementation and monitoring of National Urban Policy at the global level.

TITLE OF NUP

Politica National
de Ordenamento
do Territorioe do
Urbanismo

FOCUS

The focus of the policy will be to improve the inter-sectorial coordination to address urban issues and focus on key areas such as urban regional planning. The policy aims to set the vision of the country for the next 20-30 years.

COMMENTS

The project is led by UN-Habitat and is being funded by the Government of Angola.

TITLE OF NUP

Growth Strategy for
Poverty Reduction

FOCUS

The Growth strategy for poverty reduction was created in conjunction with the World Bank and the IMF. It describes the country's macroeconomics, structural and policies in support of growth and poverty reduction

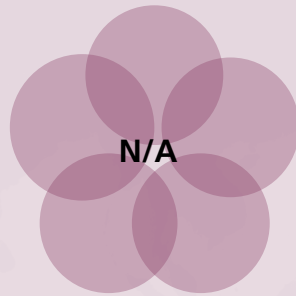

COMMENTS

There is no explicit NUP. However, Benin did work with the World Bank on the "Decentralized City Management Project" for a 2-phase Adaptable Program Loan (APL).

National Settlement
Policy

FOCUS

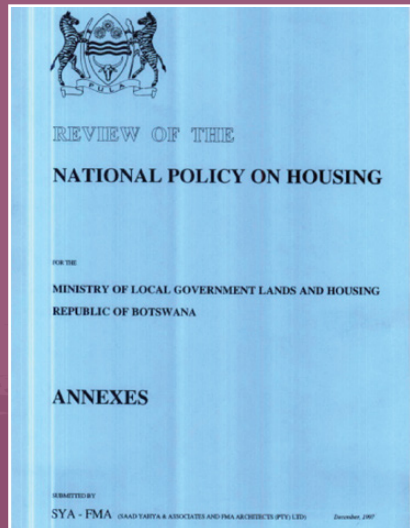

The National Settlement Policy provides guidelines and a long-term strategy for the establishment and development of human settlements. The policy focuses on the development of transportation and utility networks to strengthen linkages between settlements, and on preservation of best agricultural lands.

COMMENTS

The National Settlement Policy is an explicit NUP and was revised in 2014.

TITLE OF NUP

Urban Environmental
Rehabilitation Project

FOCUS

The project has three main components:
rehabilitation and extension of the primary
drainage system of the city of Bangui,
neighborhood development (including water,
sanitation, and secondary and tertiary drainage
and street infrastructure), and institutional
support for capacity building of agencies.

COMMENTS

There is currently no NUP. According to the World
Bank's report on CAR's Urban Rehabilitation
Project (1996), the government had an urban
policy which materialized into the Municipal
Development Program (MDP) in 1993.

FOCUS

The document focuses on improving of finance
for settlement and decentralizing centreal
services.

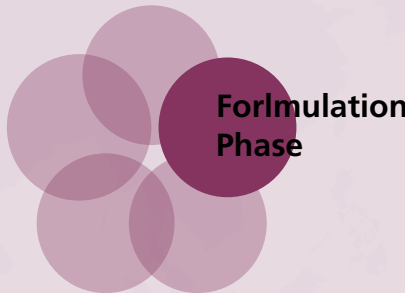

COMMENTS

The government is expected to develop an
explicit NUP "Durah III" with the help of UN-
Habitat and UNDP. There have been efforts to
improve urban development by preparing urban
development plans for N'Djamena and other
secondary cities, and by financing development
project such as the Urban Development and
Housing Improvement Project and the Additional
Financing for Urban Development Project.

OTHER DOCUMENTS OR GUIDELINES FOR URBAN DEVELOPMENT

Legislation Urban Development and Construction: Law N11-026/AU

Democratic Republic of Congo (DRC),
Africa

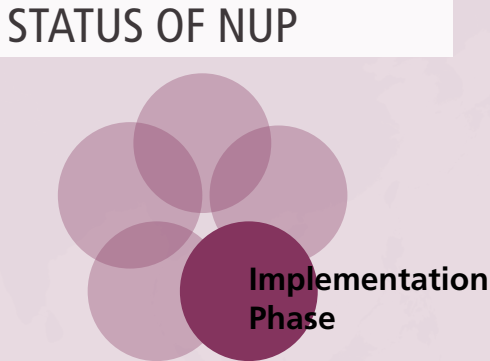

TITLE OF NUP
Decree Urbanism

FOCUS
The 1957 Decree tasks the Planning Department of allocating land development plans and authorizes Land Affairs of establishing the occupation of land titles. The decree assigns a Chief Town and a City Planning Commission for each province. The commission is made up of 5 voting members, comprised of a Legal Advisor and an Architect-Planner.

COMMENTS
There is no NUP. Urban development has been guided by the same documents and legislations contained in the decree of urbanism from 1957. The decree is no longer relevant; the acceleration of urbanization has exacerbated the obsolescence of the decree.

LEADING AGENCY FOR URBAN DEVELOPMENT

FOCUS

The plan focuses on diversifying the economy to reduce the country's dependency on the oil industry. The five main objectives of the plan are to: promote economic growth, strengthen the development of structured investments, promote social policies, ensure a transparent social climate, and develop prospects for monitoring and evaluating lower income households.

COMMENTS

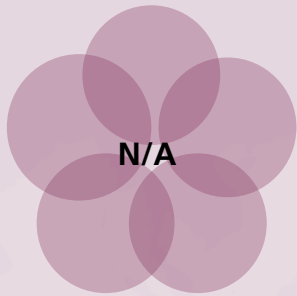

There is no explicit NUP. Urban development is guided by Horizon 2020 Development Plan, which is also called the National Socio-Economic Development Plan.

TITLE OF NUP

National Urban
Development Policy

FOCUS

The National Urban Development Policy was founded on the Agricultural Development Led Industrialization (ADLI), Industrial Development Strategy, federalism, democratization and civil service reform. The policy focuses on strengthening urban- rural linkages, sustainable development, and democracy and good governance.

COMMENTS

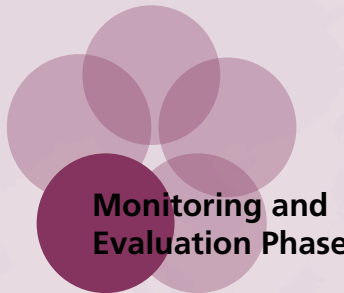

The policy was formulated in 2005 by the Ministry of Federal Affairs. The Structure Plan of 2012 initiated the implementation of some components of the policy.

TITLE OF NUP

National Urban Policy:
Action Plan

FOCUS

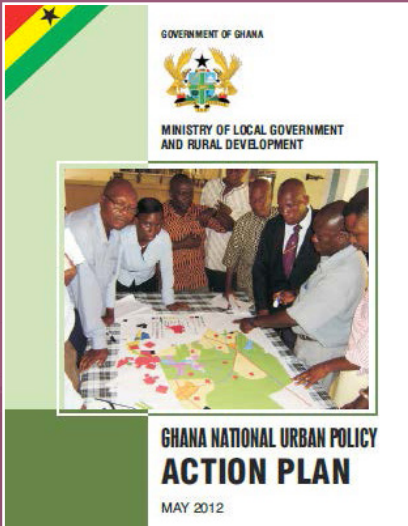

The National Urban Policy aims to promote a sustainable, spatially integrated and orderly development of urban settlements. The focus of the policy is to provide adequate housing, infrastructure and services.

COMMENTS

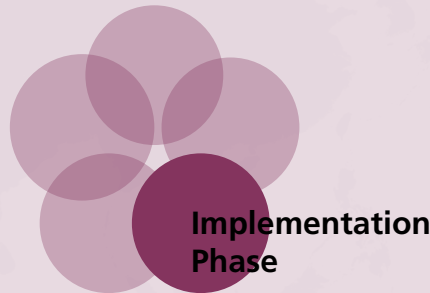

The National Urban Policy is an explicit NUP. It is being implemented through Ghana's National Urban Policy Action Plan. The plan defines the initiatives and activities within the timeframe of 5 years. The policy has yet to be reviewed.

TITLE OF NUP

National Urban
Development

FOCUS

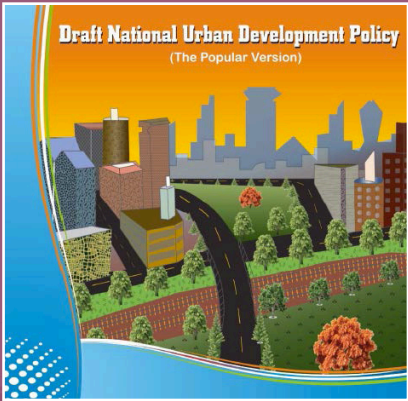

The NUDP focuses on urban economy, urban governance and management, national and county urban planning, environment and climate change, social infrastructure and services, urban housing, urban safety and disaster risk management, and marginalized and vulnerable groups.

COMMENTS

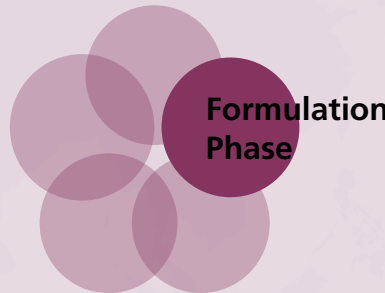

The NUDP is an explicit national urban policy, however it is still at the drafting stage; it is still undergoing scrutiny and improvements. The policy is in conjunction with Kenya's Vision 2030; which envisions Kenya as a middle-income majority country with most of its population living in urban areas.

TITLE OF NUP

National Development
Strategy

FOCUS

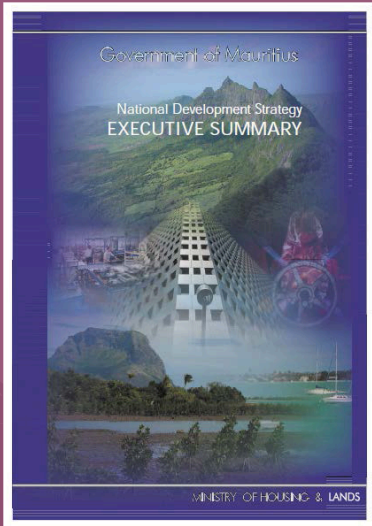

The National Development Strategy guides urban development in Mauritius. The main focus of the strategy is on land use planning. The strategy also considers enhancing sustainable development by incorporating its three pillars: economic growth, environmental protection, and social progress recognizing the needs of all people.

COMMENTS

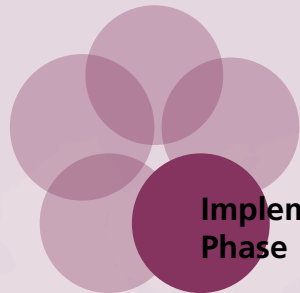

There is no Explicit NUP. Urban development is guided by the National Development Strategy.

TITLE OF NUP

National Urban Policy

FOCUS

The NUPP of Namibia focuses on land reform, particularly on the connection between poor people's right to lands and access to basic service. Other focus areas are creating environmentally conscious urban infrastructure and services, and strengthening human settlement financial systems.

COMMENTS

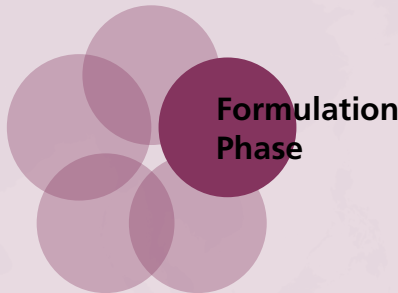

A NUP is in the process of being prepared with collaboration with UN- Habitat. The policy is to address three categories of challenges: institutional, planning, and urban governance.

TITLE OF NUP

National Urban
Development Strategy

FOCUS

A National Urban Development Strategy forms part of Niger's Accelerated Development and Poverty Reduction Strategy, 2008-2012. This includes an Urban Planning and Development Scheme (SDAU) developed in 2004 and an additional law providing guidance on urban land planning passed in 2010.

COMMENTS

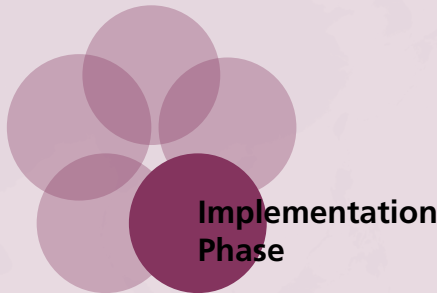

There is a NUP. However, there has not been sufficient implementation of the urban development strategy. That is due to a lack of political will, lack of mobilization of facilitating partners, the as poor management of urban areas, and inadequately prepared subdivision plans.

TITLE OF NUP

National Urban
Development Policy

FOCUS

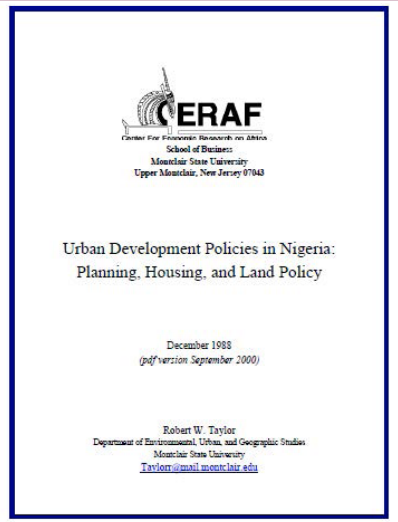

The key objectives of the NUDP are: to promote efficient urban development and management, to define the responsibilities of all levels of government to ensure accountability, to provide financial mechanism to governments for slum upgrading and urban infrastructure, and to revise and implement sectoral programs in housing, environment, and employment.

COMMENTS

The NUP for Nigeria was first developed in 1992 which implementation was not successful and it was reviewed in 2012.

TITLE OF NUP

National Urban Policy

FOCUS

The policy is focuses on addressing current urbanization challenges such as: balanced development, urban governanve, enviromental quality of urban life, effective urban planning and management to address urban sprawl, efficient urban infrastrcuture, safety and security in urban areas, and competitiveness. The policy also focuses on providing open public spaces, promotion of cultural tourism and heritage, as well as urban renewal and it promoting healthy and safe urban environments.

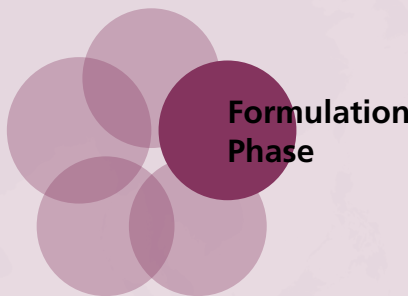

COMMENTS

The NUP is explicit and was developed with assistance from UN-Habitat. The policy was approved in June of 2017.

TITLE OF NUP

Politique de la ville

FOCUS

Law N°06-6 provides a legal framework for the development of Algerian Politique de la Ville. The general governing principles of urban policy rest on: coordination and consultation, deconcentration and decentralization, neighbourhood bases management, human development, sustainable development, good governance, citizen awareness, culture and heritage preservation, and social justice.

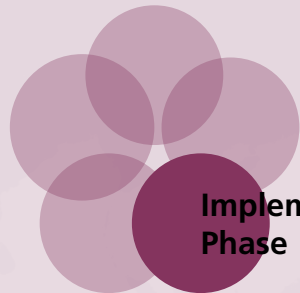

COMMENTS

The law [Law no.06-06 of 20 February 2006] orients policy towards cities

TITLE OF NUP

National Planning and
Development Strategy

FOCUS

The development strategy aims to transform Bahrain into an innovate 21st century country. The plan is designated to address the role of sustainable land use development in guaranteeing predictable and long term economic growth. The plan narrows down on issues such as natural resources, inadequate housing, and insuffiecent public spaces.

COMMENTS

The National Planning and development strategy is not an explicit NUP, however it is the first of its kind in the Persian/ Arab Gulf.

TITLE OF NUP

National Spatial
Strategy 2010 and
Oman Vision 2040

FOCUS

The National Strategy (ONSS) prepares a framework for land use strategies that will ensure a balanced, and sustainable socio-economic development at national and regional level

COMMENTS

The plan is not an explicit NUP. However, the implementation of the plan aligns with the goals of Oman 2040 Vision, which is the largest project currently happening in Oman.

TITLE OF NUP

Urban and Regional
Structure
Frameworks
(2030)

FOCUS

The framework is grounded in the cultural and environmental identity of Abu Dhabi; it provides conceptual solutions to shape growth in Abu Dhabi. The framework addresses sustainability, connectivity, livability, evolving culture, unique environment, and identifies opportunities. These topics are outlined in sub-thematic areas in the framework such as: capital city, open space, transportation, land use and the environment.

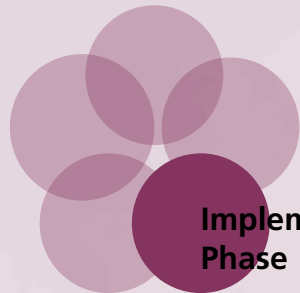

COMMENTS

This is not an explicit NUP. It is a conceptual framework that strengthens the process of reviewing and planning. It presents a practical, flexible, and sustainable view of the future.

TITLE OF NUP

Our Cities, building
a productive,
susustainable and
liveable future.

FOCUS

The objective of the plan is to inform planning
an investment of the country's largest cities and
smaller regional cities. The plan focuses on three
main areas: smart investments, smart policy, and
smart technology.

COMMENTS

This is an explicit NUP and it was published in
2016, However the federal has suspended the
implementation of the policy.

TITLE OF NUP

National Urban
Strategy

FOCUS

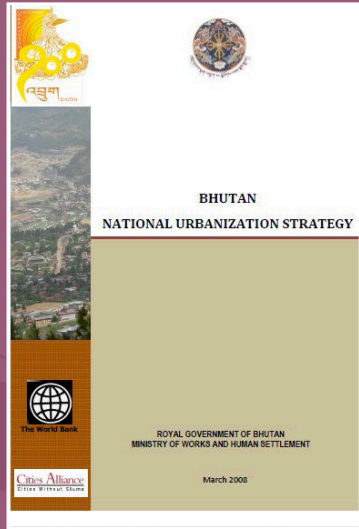

The urban policy focuses on organizing and coordinating the development of urban settlements at the national level by emphasizing local governance. The objective is to create a balanced and equitable regional development by providing housing, employment, transportation, local governance and municipal finance.

COMMENTS

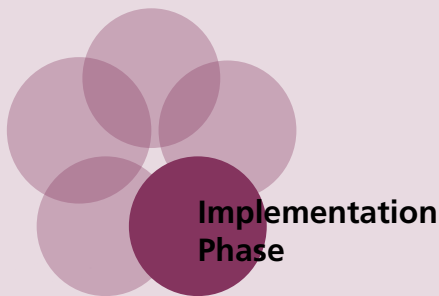

The Strategy is an explicit NUP. However, the country's lack of economic and technical capacities lead to the slow implementation of strategies that address urban problems.

National Urban
Development Strategy
(NUDS) 2014-2018

FOCUS

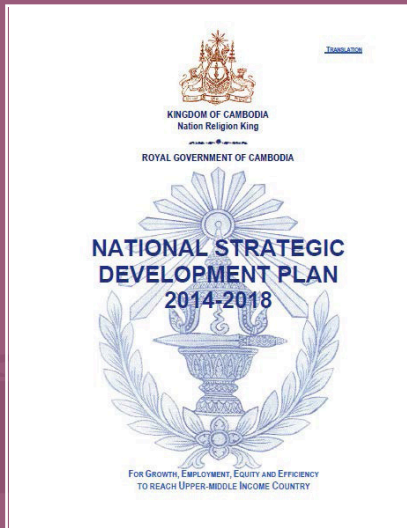

The NUDS promotes socio-economic development through good governance, rule of law, econmic and human development, and sustainable management of natural resources. The plan also calls for decentralisation and the empowerment of local agencies to manage urban development

COMMENTS

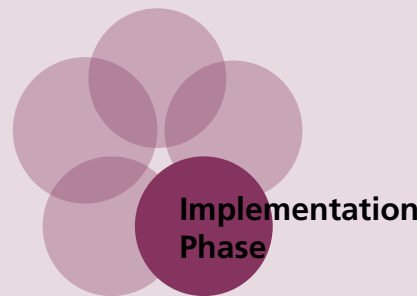

The NUP has been successful in rebuilding the country after going through three decades of civil war.

TITLE OF NUP

National Urbanization
Plan (2014-2020)

FOCUS

The New Urbanization plan for China focuses on Social and Economic development. The main objective is improving the quality of urbanization. It is a macro, strategic plan that guides the healthy development of urbanization across the country.

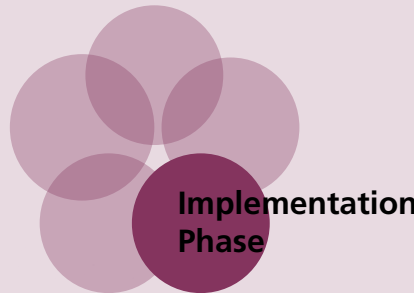

COMMENTS

This document is a plan and not a policy; it is however a representation of urban issues and how to deal them

TITLE OF NUP

National Strategic
Development Plan
2011-2030

FOCUS

The 20 year vision seeks to establish East Timor as a prosperous and strong nation. The objective is to transform East Timor from a low income to upper middle income country. The plan aims to provide adequate food, shelter and clothing for all, it also seeks to improve the living standards of the population, improving literacy and employment rates.

COMMENTS

There is no explicit NUP. The country is focusing on rebuilding after being occupied. Its main focus is on capacity building rather than developing an NUP.

TITLE OF NUP

National Urban Policy

FOCUS

The plan promotes cities that provide core infrastructure and give a decent quality of life to its citizens. A smart city is clean, sustainable and applies "smart" solutions to solve urban problems. This involves water supply, adequate sanitation and waste management , affordable housing and a sustainable environment.

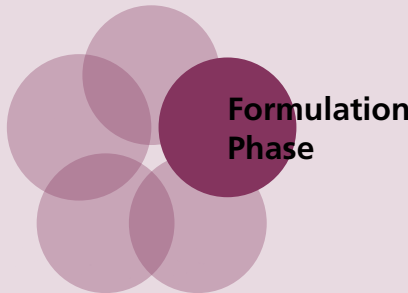

COMMENTS

The Central Government has funding allocated to cities without a system of cities approach. The cities for the project include: Agra, Bhopal, Diu, Erode and many more. UN-Habitat is assisting in developing a National Urban Policy (2017); it is still in the formulation phase.

TITLE OF NUP

National Policies
and Strategies for
Urban Development
towards Sustainable
Competitive Cities for
2045

FOCUS

The Plan also referred to as the KSPPN, it
prioritizes the improvement of urban services
such as transportation systems, energy, clean
water supply. The plan is implemented through
assessing autonomous cities which are defined
as cities which have administratively delineated
boundaries

COMMENTS

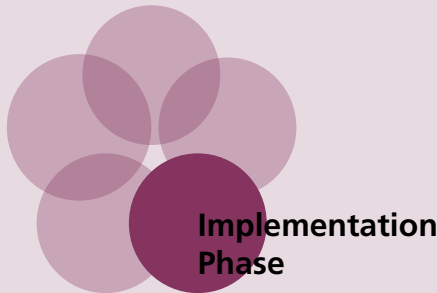

The Indonesian government is currently
considering a New Urban Agenda as part of the
UN Habitat Agenda III (2016-2036).

TITLE OF NUP

National Strategies
for Sustainable
Development

FOCUS

The plan has several goals related to climate change, adaptation strategies, and food security on the island. The strategy looks at the pillars of sustainable development (economic growth, environmental conservation, social integration) through good governance, and public participation.

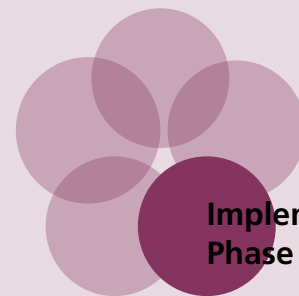

COMMENTS

The plan is created in conjunction with UNEP and is especially important in the wake of recovery efforts after the 2004 Tsunami.

National Strategy for Sustainable Development

FOCUS

The strategy has outer island and Falekaupule development as a key strategy and has different priorities such as good governance, economic growth, improved basic infrastructure, social development. Each priority plays a vital role in attaining the "Vision", which is to achieve a healthier a more educated, peaceful, prosperous Tuvalu. Under "Social Development," the National Strategy has housing as a key objective, including improving housing standards and improving the provision and availability of housing, reviewing land leases to afford greater security and "develop an urban management plan for Funafuti that offers land for residential development.

TITLE OF NUP

Principles of Urban Policy

FOCUS

The 2010 principles of urban policy lay out the foundation for a future national urban policy. The principles highlight the importance of urban policy for regional development in a multi-sectoral manner. The focus is on the environment, sustainable urban development, and promoting growth by creating regional development poles.

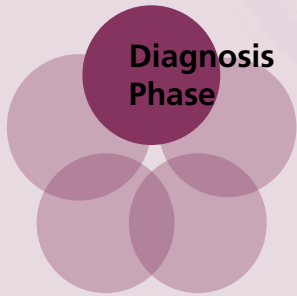

COMMENTS

The principles are termed as an explicit NUP, however, they provide a framework for creating a future NUP. The principles are representative of an implicit NUP. They were formulated in 2010 and thus they are at the implementation stage.

TITLE OF NUP

Sustainable Development Strategy for Malta (2007-2016)

FOCUS

The National Sustainable Development strategy was established to build upon and harmonize the various sectoral, economic, social and environmental policies and plans that are operating in the country. The strategy ensures the implementation of a socially responsible economic development that protects the resources base and environment for the benefit of future generations. This is not an explicit NUP. The key priority areas of the strategy are the environment, the economy, society, cross-cutting issues and the implementation of strategies.

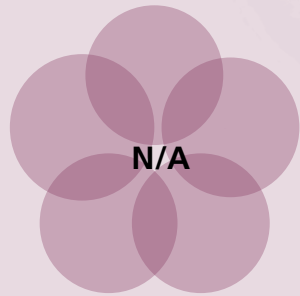

COMMENTS

The process of drafting the National Strategy for Sustainable Development was initiated during the 5th meeting of Malta's National Commission for Sustainable Development (NCSD), held on 9th of December, 2002.

TITLE OF NUP

Dutch Urban Agenda (Agenda Stad)

FOCUS

The policy focuses on increasing economic growth, quality of life, and innovations in Dutch cities. The policy is based on three principles: 1. to promote the growth of cities and differentiate themselves, 2. to co-operate between urban developments and encourage cities to work together, and 3. to create conditions for innovation that will improve the quality of life and attract developers by fostering networks of data, energy, and transport infrastructure.

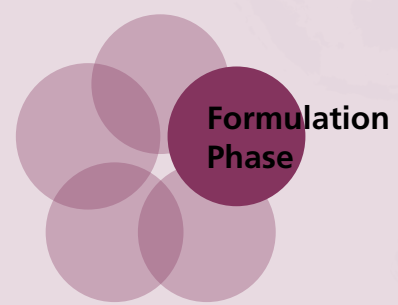

COMMENTS

The explicit NUP is being formulated. Initial proposal was submitted to the House of Representatives in June of 2015.

TITLE OF NUP

Livable Cities – the Swedish governmental policy for sustainable urban development

FOCUS

The policy focuses on three main pillars. The first one highlights the national priorities on housing, basic services, socio-economic wellbeing, culture, lifestyle, mobility and infrastructure, and climate, energy and the environment. The second pillars identifies the need for reform of the system and processes related to urban governance, legislation, regulations, urban design, and urban economy. The last pillar focuses on formulating strategies for development, implementation and monitoring. Together the three pillars function as a 3 step roadmap towards local implementation of global agendas and providing national support.

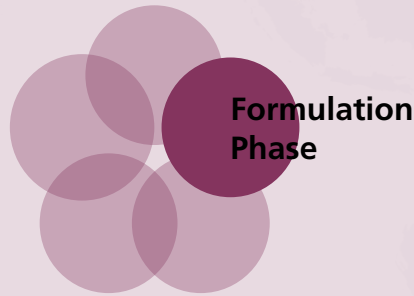

COMMENTS

The plan is still in the formulation stage. Its basis is the New Urban Agenda.

TITLE OF NUP

Statute of the
City

FOCUS

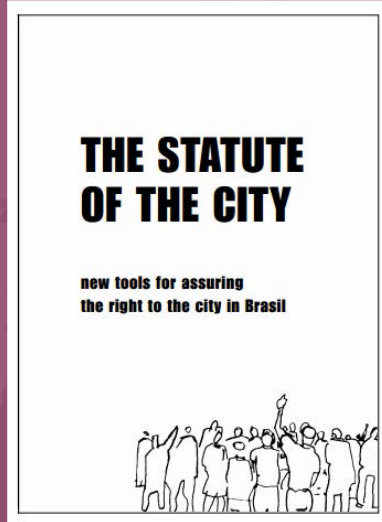

The law addresses urban developments within municipalities. It provides regulations, frameworks, and management tools that support the implementation of the law. The law focuses on establishing public order and social interest. It promotes the development of urban property that considers the collective safety and welfare of its citizens, and the environment.

COMMENTS

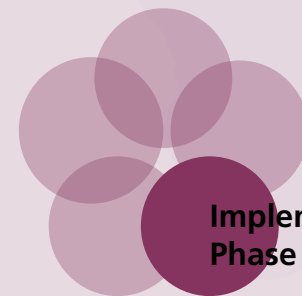

The city statute is an implicit NUP as it does not address all aspects that a NUP should.

TITLE OF NUP

National Urban
Development
Policy

FOCUS

The NUP focuses on improving the quality of life by addressing urban development, decentralizing decision making, provide a guide for policy reform, and to create opportunities for social development and private investments. The policy has five main themes which are: social integration, economic development, environmental balance, cultural identity and heritage, and institutional and governance reforms.

COMMENTS

The NUP has been formulated and OECD has reviewed the status of urban development and urban policies. Therefore, the NUP is going through two stages at the same time; implementation and monitoring.
